

Health Education and Exemption from Instruction

Consistent with Department of Education requirements, health and physical education, including instruction about parts of the body, reproduction, and related topics, will be included in the instructional program.

Instruction must be appropriate to grade level, course of study, and development of students and must occur in a systematic manner. The Superintendent will require that faculty members who present this instruction receive continuing in-service training, which includes appropriate teaching strategies and techniques.

Parents/guardians will have the right to inspect health and physical instruction materials which will be made reasonably accessible to parents/guardians and others to the extent practicable.

Parents and legal guardians shall be notified by e-mail, other written means, website/social media postings or phone call, not less than two (2) weeks in advance of use of the curriculum course material to be used for instruction of human sexuality or human sexual education, that the material is available for inspection at the school. The notice will identify and provide contact information for the member of staff or faculty whom a parent or guardian should contact to arrange an opportunity to inspect the curriculum course material.

Parents/guardians who wish to review or inspect health and physical education materials may arrange a meeting with the Principal to review the materials.

Opt-Out Procedure and Form

Parents/guardians, or students over eighteen years of age, who do not want their child to participate in a particular unit of health or sex education instruction for religious reasons or religious objections, are allowed to have their child opt-out of such instruction.

Parents/guardians who wish to have their child opt-out of such instruction are required to complete the district Health and Sex Education Exemption: Opt-Out Form (Policy #6183.1) and state the particular unit of curriculum in which the student is not to participate. Any student who is exempted by request of the parent/guardian under this policy may be given an alternative assignment sufficient to meet state requirements for health education. The parent/legal guardian and the school principal must mutually agree on the substitution of an alternative curriculum. If mutual agreement is not reached the Superintendent will work with the parent/legal guardian and Principal to resolve concerns. The alternative course materials must meet the educational requirements as stipulated in the state minimum standards. The alternative assignment will be provided by the health or physical education teacher in conjunction with the Principal.

Parents/guardians who do not want their child to participate in a particular unit of health or physical education for religious reasons must complete a Health and Sex Education Exemption: Opt-Out Form.

Health and Sex Education Exemption: Opt-Out Forms are available from either the health education teacher or the Principal.

Opt-out requests must be submitted annually and are valid only for the school year in which they are submitted.

In accordance with the federal Protection of Pupil Rights statute and as a School District that receives federal Department of Education funds, the Superintendent shall develop procedures to allow parent/guardian of a student to review any instructional material used as part of the educational curriculum for the student. The procedures will provide reasonable access to instructional material within a reasonable period of time after the request is received.
